	<b>MATERIAL SAFETY DATA SHEET</b>	MSDS No.	01
	N-METHYL PYRROLIDONE	Effective From	07/07/2025

## Section 1 - IDENTIFICATION OF THE SUBSTANCE AND OF THE COMPANY

### 1.1 Identification of the substance

• <b>Substance Name</b>	1-methyl-2-pyrrolidone
• <b>EC#</b>	212-828-1
• <b>CAS#</b>	872-50-4
• <b>Trade Names</b>	As per the Client
• <b>REACH Registration number</b>	01-2119472430-46-XXXX
• <b>Chemical Formula</b>	C5H9NO

### 1.2 Use of the Substance/Mixture:

- As per the Client

### 1.3 Company/undertaking identification:

• <b>Name</b>	Bloomchemag BV
• <b>Address</b>	Sint-Antoniusstraat 16 b1, B-2400, Mol, Belgium
• <b>Phone No.</b>	+91 72919 74484 / 72919 74050
• <b>E-mail</b>	info@bloomchemag.com

## Section 2 - HAZARDS IDENTIFICATION

### 2.1 Classification according to GHS

Substance is classified as per CLP Regulation

• Hazard Class and Category Code(s)	GHS08: health hazard GHS07: exclamation mark
• Hazard statement Code(s)	H360: May damage fertility or the unborn child <state specific effect if known > <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>. unborn child H319: Causes serious eye irritation.H315: Causes skin irritation. H335: May cause respiratory irritation.

**MATERIAL SAFETY DATA SHEET**

From

07/07/2025

**4.2. Most important symptoms and effects, both acute and delayed**

Symptoms: The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11., Further symptoms are possible

**4.3. Indication of any immediate medical attention and special treatment needed**

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

**Section 5 - FIRE-FIGHTING MEASURES****5.1. Extinguishing media:**

Suitable extinguishing media:  
water spray, dry powder, foam, carbon dioxide

**5.2. Special hazards arising from the substance or mixture**

carbon monoxide, Carbon dioxide, nitrous gases  
Under certain conditions in case of fire other hazardous combustion products may be generated.

**5.3. Advice for fire-fighters**

Special protective equipment:  
Wear self-contained breathing apparatus and chemical-protective clothing.

**Section 6 - ACCIDENTAL RELEASE MEASURES****6.1. Personal precautions, protective equipment and emergency procedures****6.1.1 For non-emergency personnel:**

Handle in accordance with good industrial hygiene and safety practice. Wear respiratory protection if ventilation is inadequate. Avoid contact with the substance.

**6.1.2 For emergency responders**

NA

**6.2. Environmental precautions:**

- Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater. Retain and dispose of contaminated wash water. Dispose of in compliance with the environmental protection requirements.

**6.3. Methods and material for containment and cleaning:**

- For small amounts: Pick up with absorbent material (e.g. sand, sawdust, general-purpose binder).
- For large amounts: Pump off product.
- For residues: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr).

	<b>MATERIAL SAFETY DATA SHEET</b>	MSDS No.	01
	N-METHYL PYRROLIDONE	Effective From	07/07/2025

- Clean contaminated floors and objects thoroughly with water and detergents, observing environmental regulations. Collect waste in suitable containers, which can be labeled and sealed. Incinerate or take to a special waste disposal site in accordance with local authority regulations.

## Section 7 - HANDLING AND STORAGE

### 7.1 Precautions for safe handling

- Ensure thorough ventilation of stores and work areas. Product should be worked up in closed equipment as far as possible.
- Protection against fire and explosion:
- Prevent electrostatic charge - sources of ignition should be kept well clear - fire extinguishers should be kept handy. Keep away from sources of ignition - No smoking

### 7.2 Conditions for safe storage:

Further information on storage conditions: Containers should be stored tightly sealed in a dry place.

Storage stability:

Storage duration: 24 Months

From the data on storage duration in this safety data sheet no agreed statement regarding the warrantee of application properties can be deduced

### 7.3 Specific end use(s):

- No further recommendations.

## Section 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

STP: 10 mg/l

oral (secondary poisoning): 1.67 mg/kg

### DNEL

worker:

DNEL inhalative: 14,4 mg/m<sup>3</sup>

DNEL dermal: 4,8 mg/kg/day

worker:

Long-term exposure- systemic effects, Inhalation: 40 mg/m<sup>3</sup>o data available

### 8.2 Exposure Control:

- **Engineering Measures:**

Handle in accordance with good industrial hygiene and safety practice. Avoid contact with the skin, eyes and clothing. Females in early pregnancy must never be exposed to the substance. Under no circumstances should the product come into contact with the skin of pregnant women or be inhaled by them. Take off immediately all contaminated clothing. Wash contaminated clothing before reuse. Gloves must be inspected regularly and prior to each use. Replace if necessary (e.g. pinhole leaks).

- **Respiratory Protection:**

Respiratory protection required in case of exceeding the occupational exposure limit: Gas filter for gases/vapours of organic compounds (boiling point >65 °C, e. g. EN 14387 Type A) Respiratory protection in case of vapour/aerosol release. Combination filter for gases/vapours of organic compounds and solid and liquid particles (f.e. EN 14387 Type A-P2) Consider the risk management measures as outlined in the exposure scenario.

### 13.1. Waste treatment methods

Incinerate in suitable incineration plant, observing local authority regulations.

A waste code in accordance with the European waste catalog (EWC) cannot be specified, due to dependence on the usage.

The waste code in accordance with the European waste catalog (EWC) must be specified in cooperation with disposal agency/manufacturer/authorities.

The UK Environmental Protection (Duty of Care) Regulations (EP) and amendments should be noted (United Kingdom).

This product and any uncleaned containers must be disposed of as hazardous waste in accordance with the 2005 Hazardous Waste Regulations and amendments (United Kingdom)

Contaminated packaging:

Contaminated packaging should be emptied as far as possible; then it can be passed on for recycling after being thoroughly cleaned.
