

**PRODUCT SPECIFICATION**  
BUTYLENE GLYCOL

Product : Butylene glycol  
 CAS No. : 6290-03-5  
 Molecular Formula : C<sub>4</sub>H<sub>10</sub>O<sub>2</sub>  
 Molecular weight : 90.12 g/mol

S.No.	PARAMETER	UNIT	SPECIFICATION
1	Appearance	-	Clear and colorless
2	Purity	%	99.7
3	Odor	-	Characteristics
4	Water content	%	0.50
5	Specific gravity at 20 <sup>0</sup> C	g/cm <sup>3</sup>	1.004
6	Acidity	mg(KOH)/g	0.05 max
7	Viscosity at 25 <sup>0</sup> C	cP	97
8	Heavy metals	-	Non detected

Application: Brontide Butylene glycol is a high-performance ingredient used in variety of personal care and cosmetic applications. It can also be used as a solvent and stabilizer for extracts and actives.

For Bloomchemag BVBA

Bloomchemag BVBA
