

BUTYL ACETATE

Available in 21MT ISO Tanks

BloomChemAG stands resilient amidst Europe's Butyl Acetate (Butac) market challenges, ensuring seamless access to essential chemicals. With unwavering commitment, we guarantee uninterrupted supply, empowering businesses to navigate with confidence.

Europe's Butyl Acetate (Butac) Market: Navigating Supply Challenges

The Butyl Acetate (Butac) market in Europe is currently experiencing significant supply constraints, leading to soaring prices and concerns among industry players.

Key Factors Contributing to the Supply Shortage:

- Force majeure by OQ Chemicals due to raw material disruption.
- Maintenance at INEOS Oxide impacting butac production.
- BASF on strict sales allocation, worsening supply issues.
- Propylene and n-butanol shortages affecting production.
- Economic pressures suppress demand but boost enquiries.
- High-priced enquiries, buyers willing to pay premium.
