Message From CEO

Rajesh Sethi, CEO

At BloomchemAG, we pride ourselves on being a trusted global supplier of chemical intermediates, with a primary focus on the European market but slowly expanding our reach in other regions, viz. Asia, Africa and Americas. Since our establishment in 2013, we have consistently strengthened our position as a robust distributor of specialty chemicals sourced from Asia.

Over the past five years, we have experienced significant revenue growth, solidifying our position in the competitive European chemical distribution market. This success has been instrumental in revitalizing European chemical production and laying the groundwork for our sustainable future. This is the only way to achieve our **key business goals of revenue growth, green transformation, sustainability and social welfare.**

Our mission is to continuously increase our share of total sales to both the "**Actual Users**" and the "**Last-mile connectors**" within the major country economies of Europe. This strategic approach enables us to gather precise market feedback, empowering us to develop winning business strategies.

Rooted in our values of customer-centricity, innovation, trust, and ethics, we are committed to fostering lasting relationships and promoting a culture of diversity and equal opportunity for all.

Thank you for your continued support to BloomchemAG!!

Introducing BloomchemAG : Your Chemical Distribution Partner

BloomchemAG is an acronym which conveys our area of operation and expertise:

Bloom: is flowering and growing,

Chem : is from Chemistry,

AG : is from Agriculture

 BloomchemAG was established in 2013 with an objective to increase footprint in Indian subcontinent, and conversely support Indian and other Asian specialty chemical producers to scale-up their operations and gain larger share of global markets.

 We are a **Europe-focused chemical distribution and international trading**, supply chain company in the field of Specialty Chemicals. BloomchemAG understands **the bridge between “Local Europe” & “Global Trading”**.

 We import and store Specialty Chemicals in Port of Antwerp and distribute to customers in Europe, as per their call-off dates. **We enable our customers to achieve economies of scale** and offer them a **full-line range of chemical products and value-added services**.

 We connect **chemical manufacturers (our principals) and chemical users (our customers)** across the world. Our customers and principals / producers know us as a **pro-active company with short lines of communication and quick decisions**.

To streamline operations in Europe, we have established BloomchemAG BV, a 100% subsidiary company set up in 2014, located in Mol, Belgium.

Strategic Overview: Driving Global Success in Chemical Distribution

Industry-Leading Distribution Solutions

BloomchemAG is a distribution firm specializing in industrial and specialty chemicals, serving a wide array of sectors. With expertise spanning diverse industries, we offer strategic outsourcing solutions to global clients. We aspire to strengthen our market presence by capitalizing on the robust demand for our products in the West, allowing us to leverage the cost advantages of sourcing from Asia.

Our approach involves providing tailored product and service solutions by deeply understanding our clients' manufacturing processes and analyzing their feedstock markets.

Driving Growth and Innovation

We are committed to simplifying the complexities of global sourcing. With a **top-line revenue exceeding 18 million EUR**, we have achieved this through our deep understanding of markets, proficiency in technical operations, and innovative approach to new business and product development. We are **aiming to reach EUR 50 million in the coming 3 years**. We are actively capitalizing on opportunities presented by the continuous outsourcing of European companies from Asia, foreseeing continued high annual growth in the near future.

Our Vision & Mission

Our Vision

To be a Reliable CRAMS player, Outsourcing and Chemical Distribution Partner for Global firms by offering Chemical Products and Services through Required Regulatory and importation, Storage and selling Infrastructure, Business Development, Sales Promotion and Distribution by Providing end-to-end Logistics to Customers' doorstep globally.

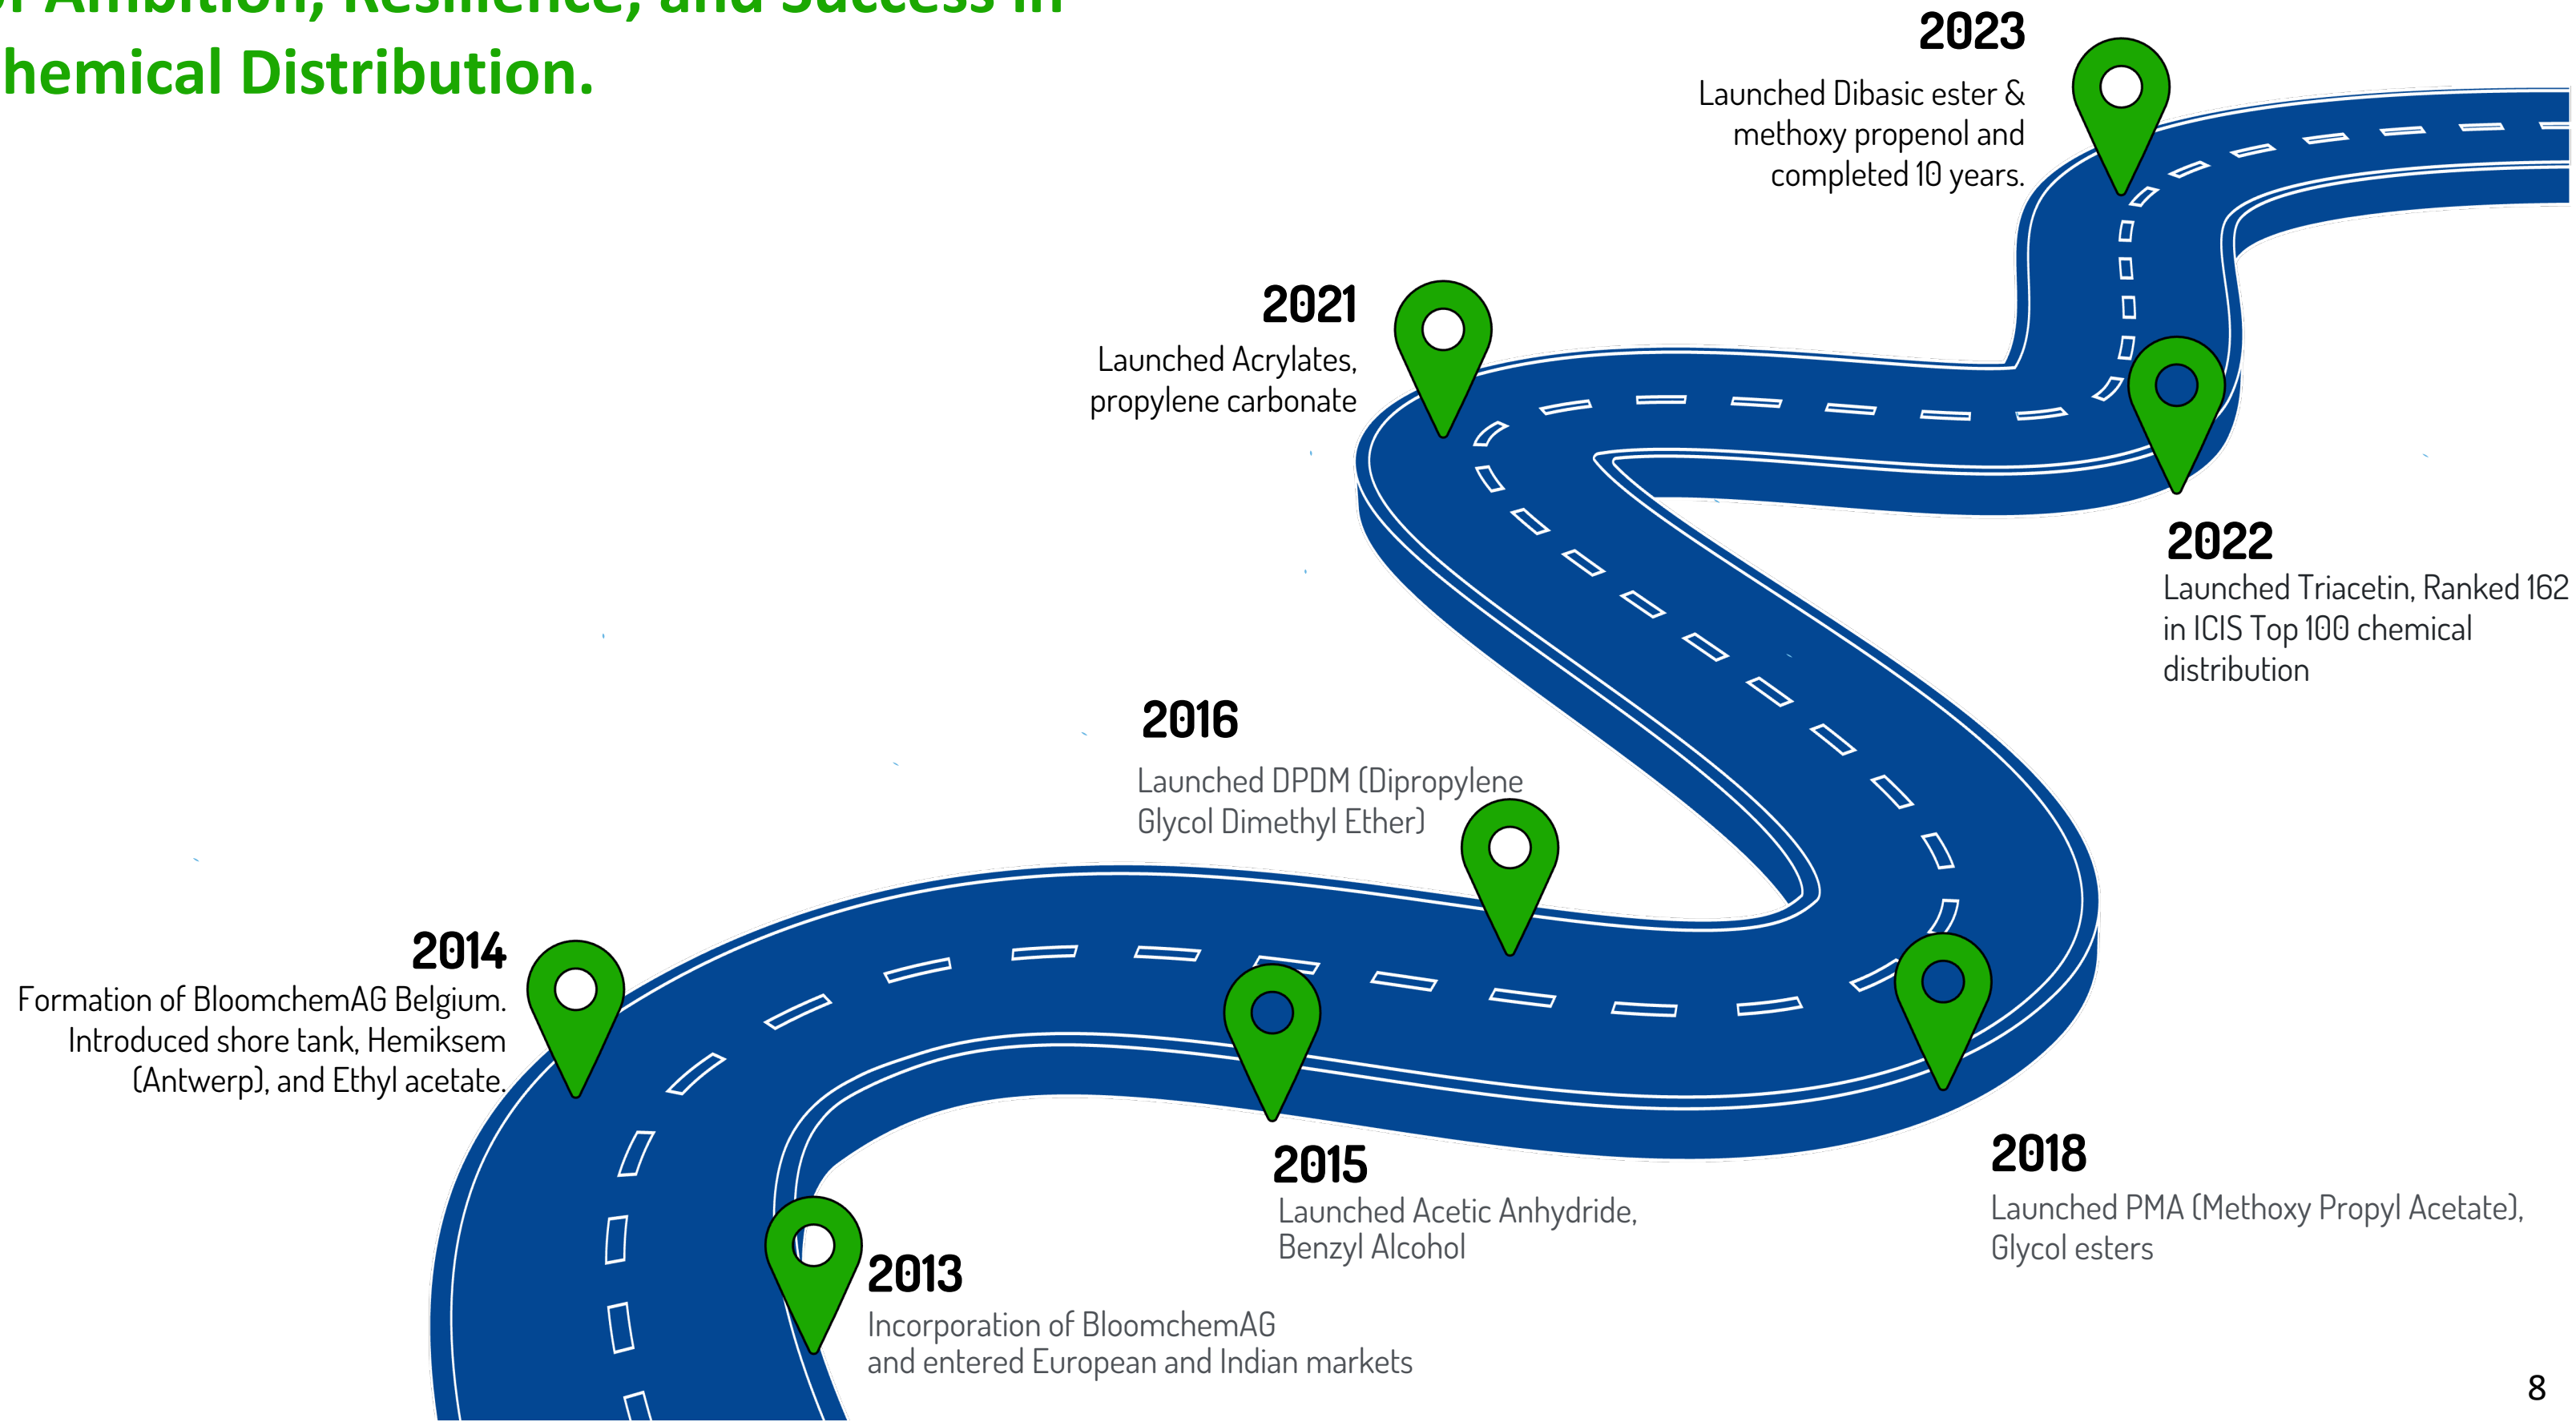

Our Mission

We aim to closely work with global chemical suppliers and create value for them and for our global customers through our knowledge, focus and entrepreneurial approach.

Navigating Challenges: Our Resilient Journey

Our Journey of Ambition, Resilience, and Success in Responsible Chemical Distribution.

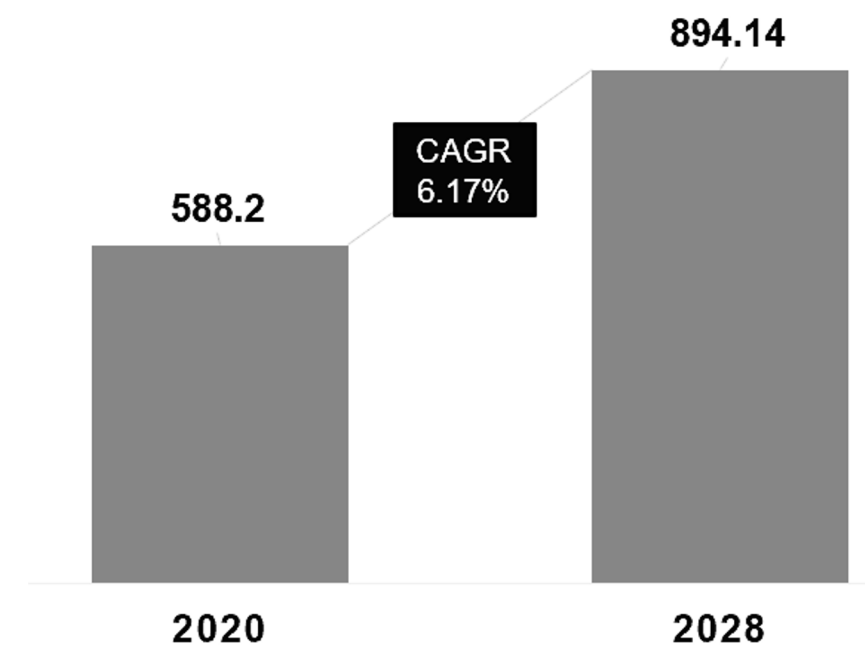

Chemical Distribution Industry Overview

The Global Chemical Distribution Market Size is valued at \$262.63 billion in 2023 and is predicted to reach \$467.67 billion by the year 2030 at a 6.67% CAGR during the forecast period for 2023-2030.

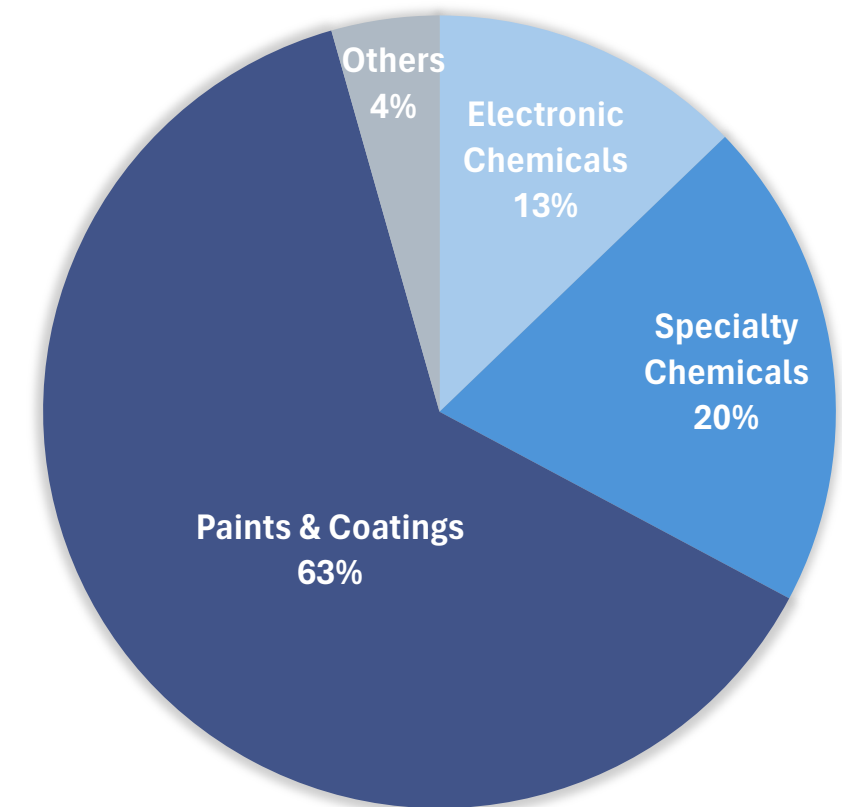

Chemical Distribution Market (in USD)

Specialty Chemical Market (in USD)

Specialty & Fine Chemicals Market By Product

Key Market Drivers

Specialty Chemicals Demand: Rising needs in pharmaceuticals, electronics, and agriculture are driving demand for specialized chemical products.

Globalization Impact: Expanding global markets and supply chains increase distribution complexity, requiring efficient logistics and strategic sourcing.

Customer-Centric Services: Growing emphasis on customer-centric approaches, including value-added services such as technical support and customized solutions.

- Paints & Coatings
- Specialty Chemicals
- Electronic Chemicals
- Others

Challenges in Chemical Distribution Industry

Logistics & Supply Chain Intricacies

- Coordinating a complex logistics chain with diverse sourcing locations
- Strict import requirements poses a significant challenge for the chemical distribution industry.

Sustainability & Environmental Concerns

- Balancing sustainability with regulatory compliance is challenging.
- Navigating the complexities of implementing TQM and HSE systems presents significant obstacles.

Regulatory Compliance

- Managing chemicals for regulatory compliance is an ongoing challenge.
- Adapting to regulatory changes poses compliance challenges for distributors.

Global Competition

- Competing with established global chemical distributors poses a formidable challenge.
- Addressing barriers to innovation and market expansion presents additional hurdles.

Quality Assurance

- Ensuring consistent product quality despite sourcing and handling variations is challenging.
- Implementing strict supply chain standardization and traceability poses challenges.

Empowering Success Amidst Industry Challenges

1

Robust Supply Chain Management

Strategically located global inventories and a robust transportation network for cost-effective sourcing from diverse producers.

2

Commitment to Sustainability

Integrated sustainability in the chemical life cycle, TQM, HSE, and partnerships with logistics firms adhering to responsible distribution ethics.

3

Expertise in Regulatory Compliance

Excelled in global compliance standards like GDPR and REACH, minimizing challenges through ongoing training.

4

Global Market Knowledge & Risk Management

Support for specialty chemical producers through feasibility studies and proactive risk management for supply chain continuity.

5

Holistic Quality Assurance

Ingrained commitment to TQM and ISO 9001:2015 certification for stringent quality control and adherence to global standards.

6

Experienced Management Team

Seasoned team adept at agile decision-making and effective risk mitigation across diverse facets of the chemical industry.

Value Creation For Our Stakeholders

Suppliers

Strategic Market Entry

Assisting global producers to enter global markets.

Scaling Operations

Supporting global producers to expand and gain global market share.

Market Knowledge Sharing

Facilitating collaborations and market insights.

Efficient Supply Chain

Cost-effective sourcing and logistics management.

Customers

Efficient Supply Chain Solutions

Diverse sourcing and strategic logistics ensure timely deliveries. Sealed-ISO tank containers temporarily stored in Antwerp facilities.

Outsourcing Expertise

Procuring and managing resources for global clients.

Customer-Centric Approach

Most European customers prefer DDP for close-to-requirement purchases, while Non-European are invoiced on CIF basis.

Global Logistics

Operations centered on Europe and Africa. Importing from Asia and strategically serving diverse markets.

BloomchemAG strategically collaborated with multiple Asian suppliers, utilizing Antwerp-Rotterdam Area ports for customs clearances, leading to significant cost savings and efficient working capital management.

Mapping Our Global Footprint

Geographical Reach:

Current Markets: Present in 30+ countries.

- **Top Products:** Leading in the distribution of monomers, specialty oligomers, polymers, and engineering plastics.

Expansion into New Territories:

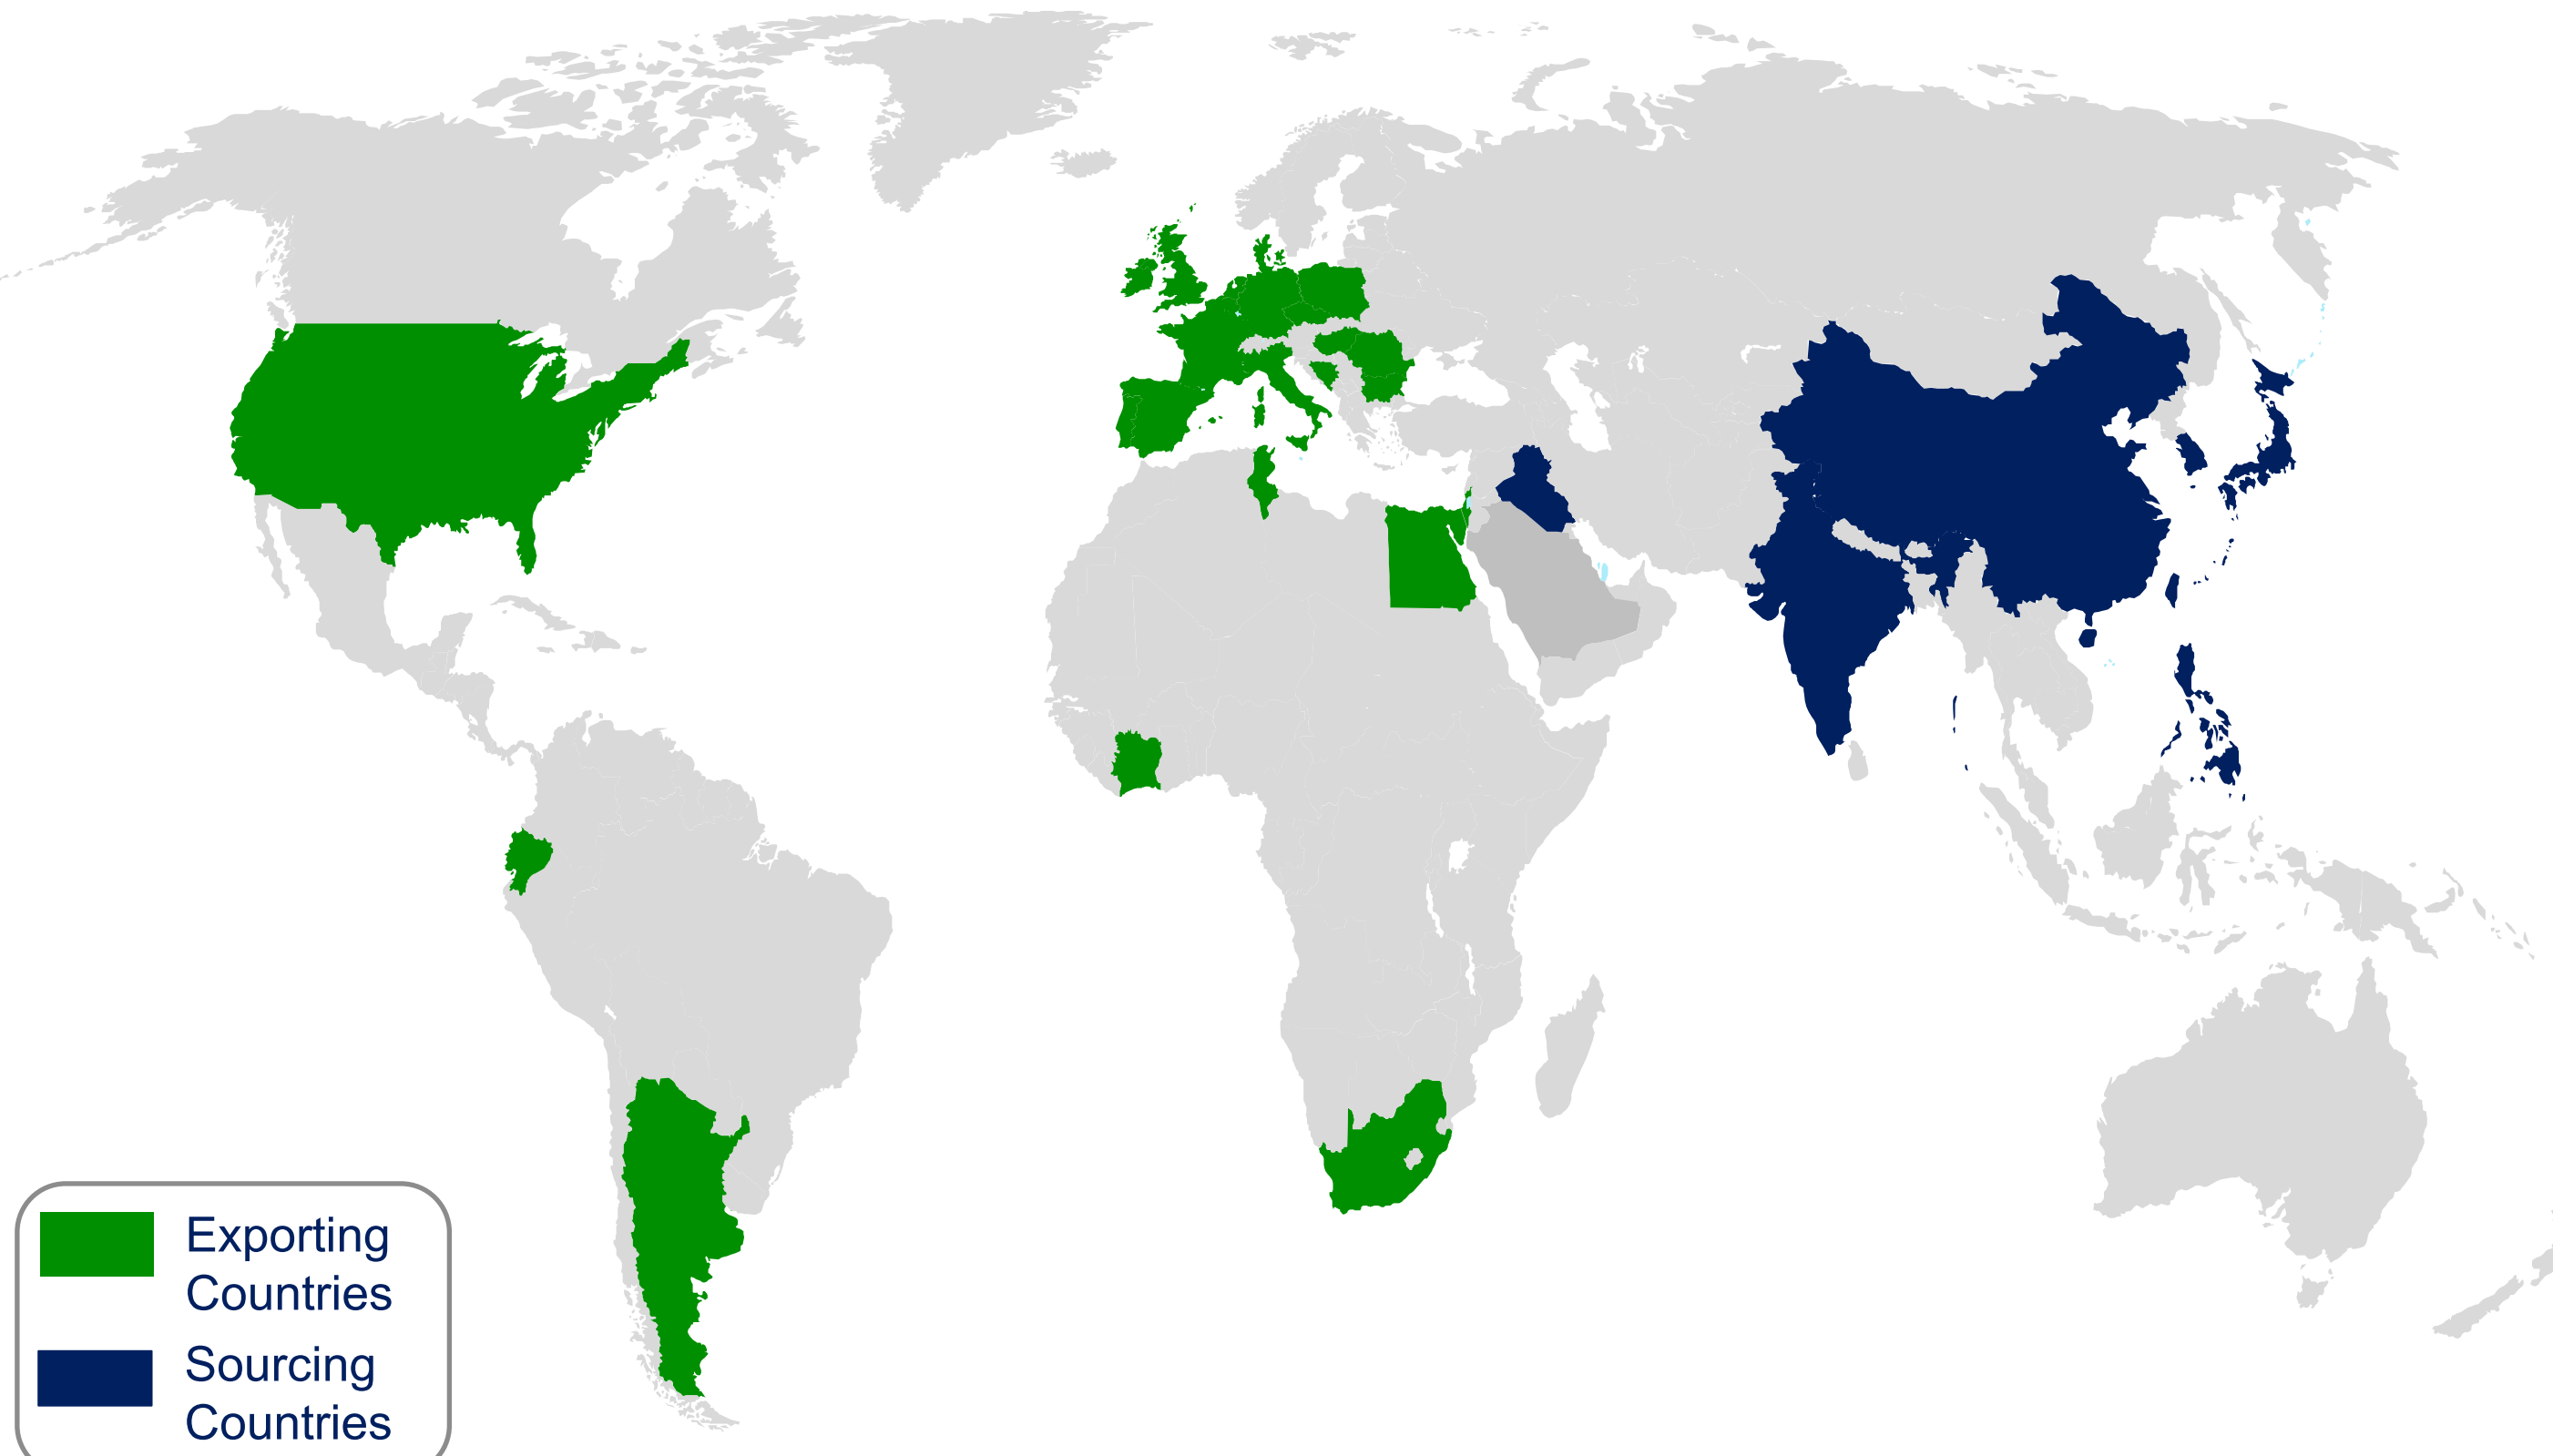

- **Diversification:** Introduced innovative products resulting in growth in new market segments.
- **Market Penetration:** Captured a significant market share in emerging territories.

Market Segmentation

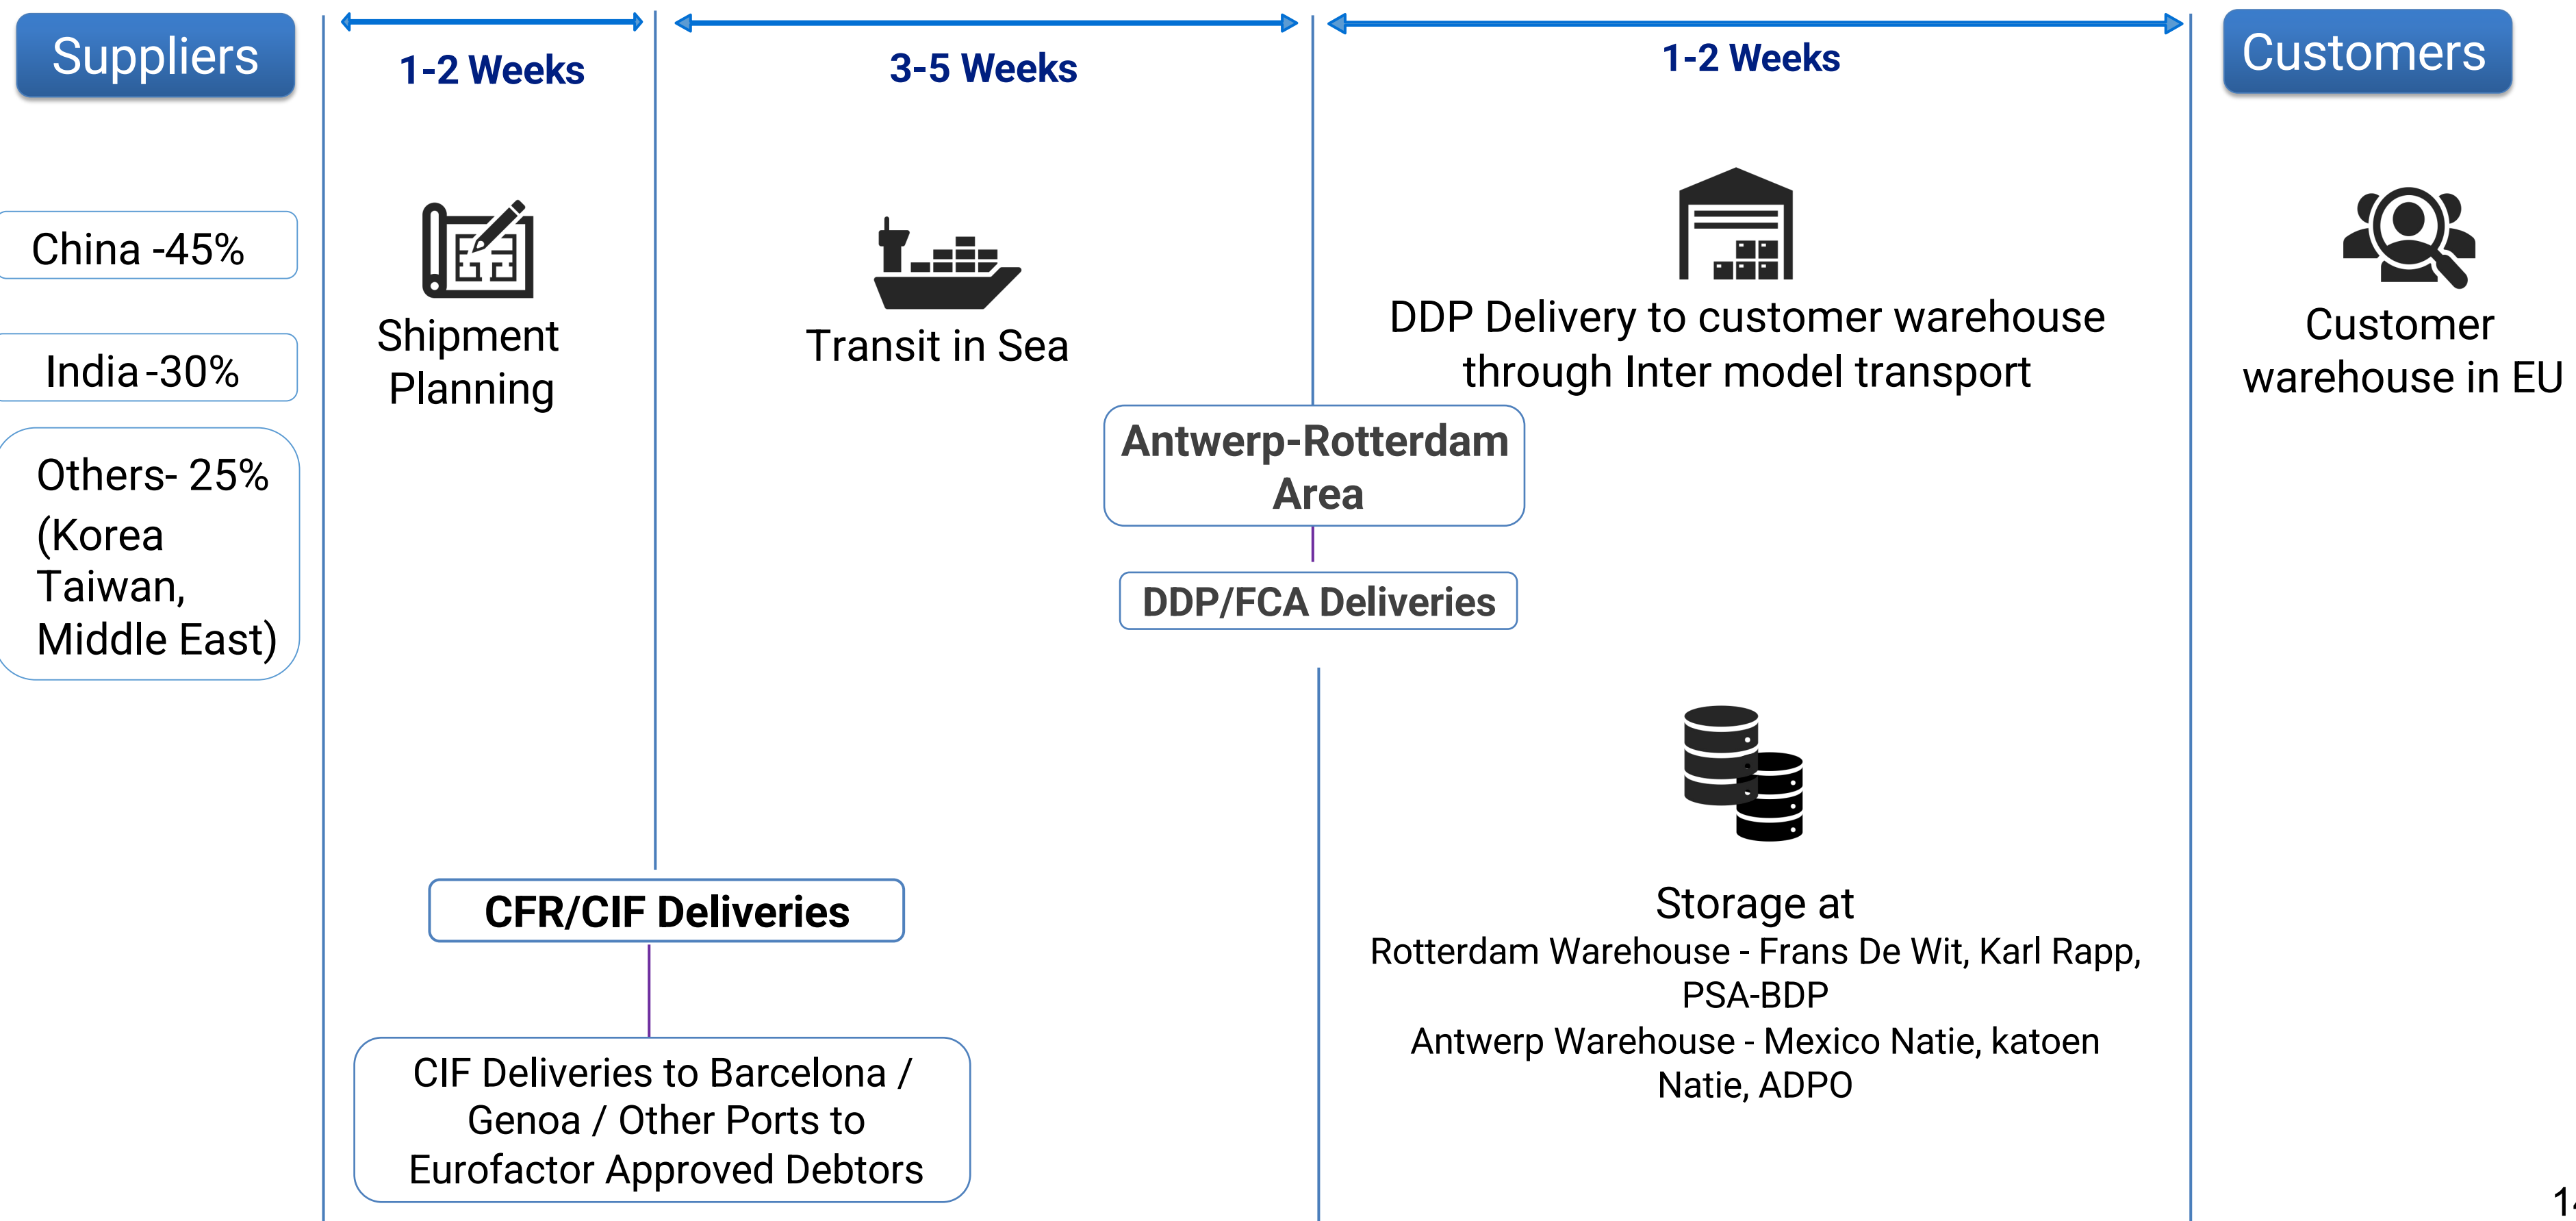

By Geography

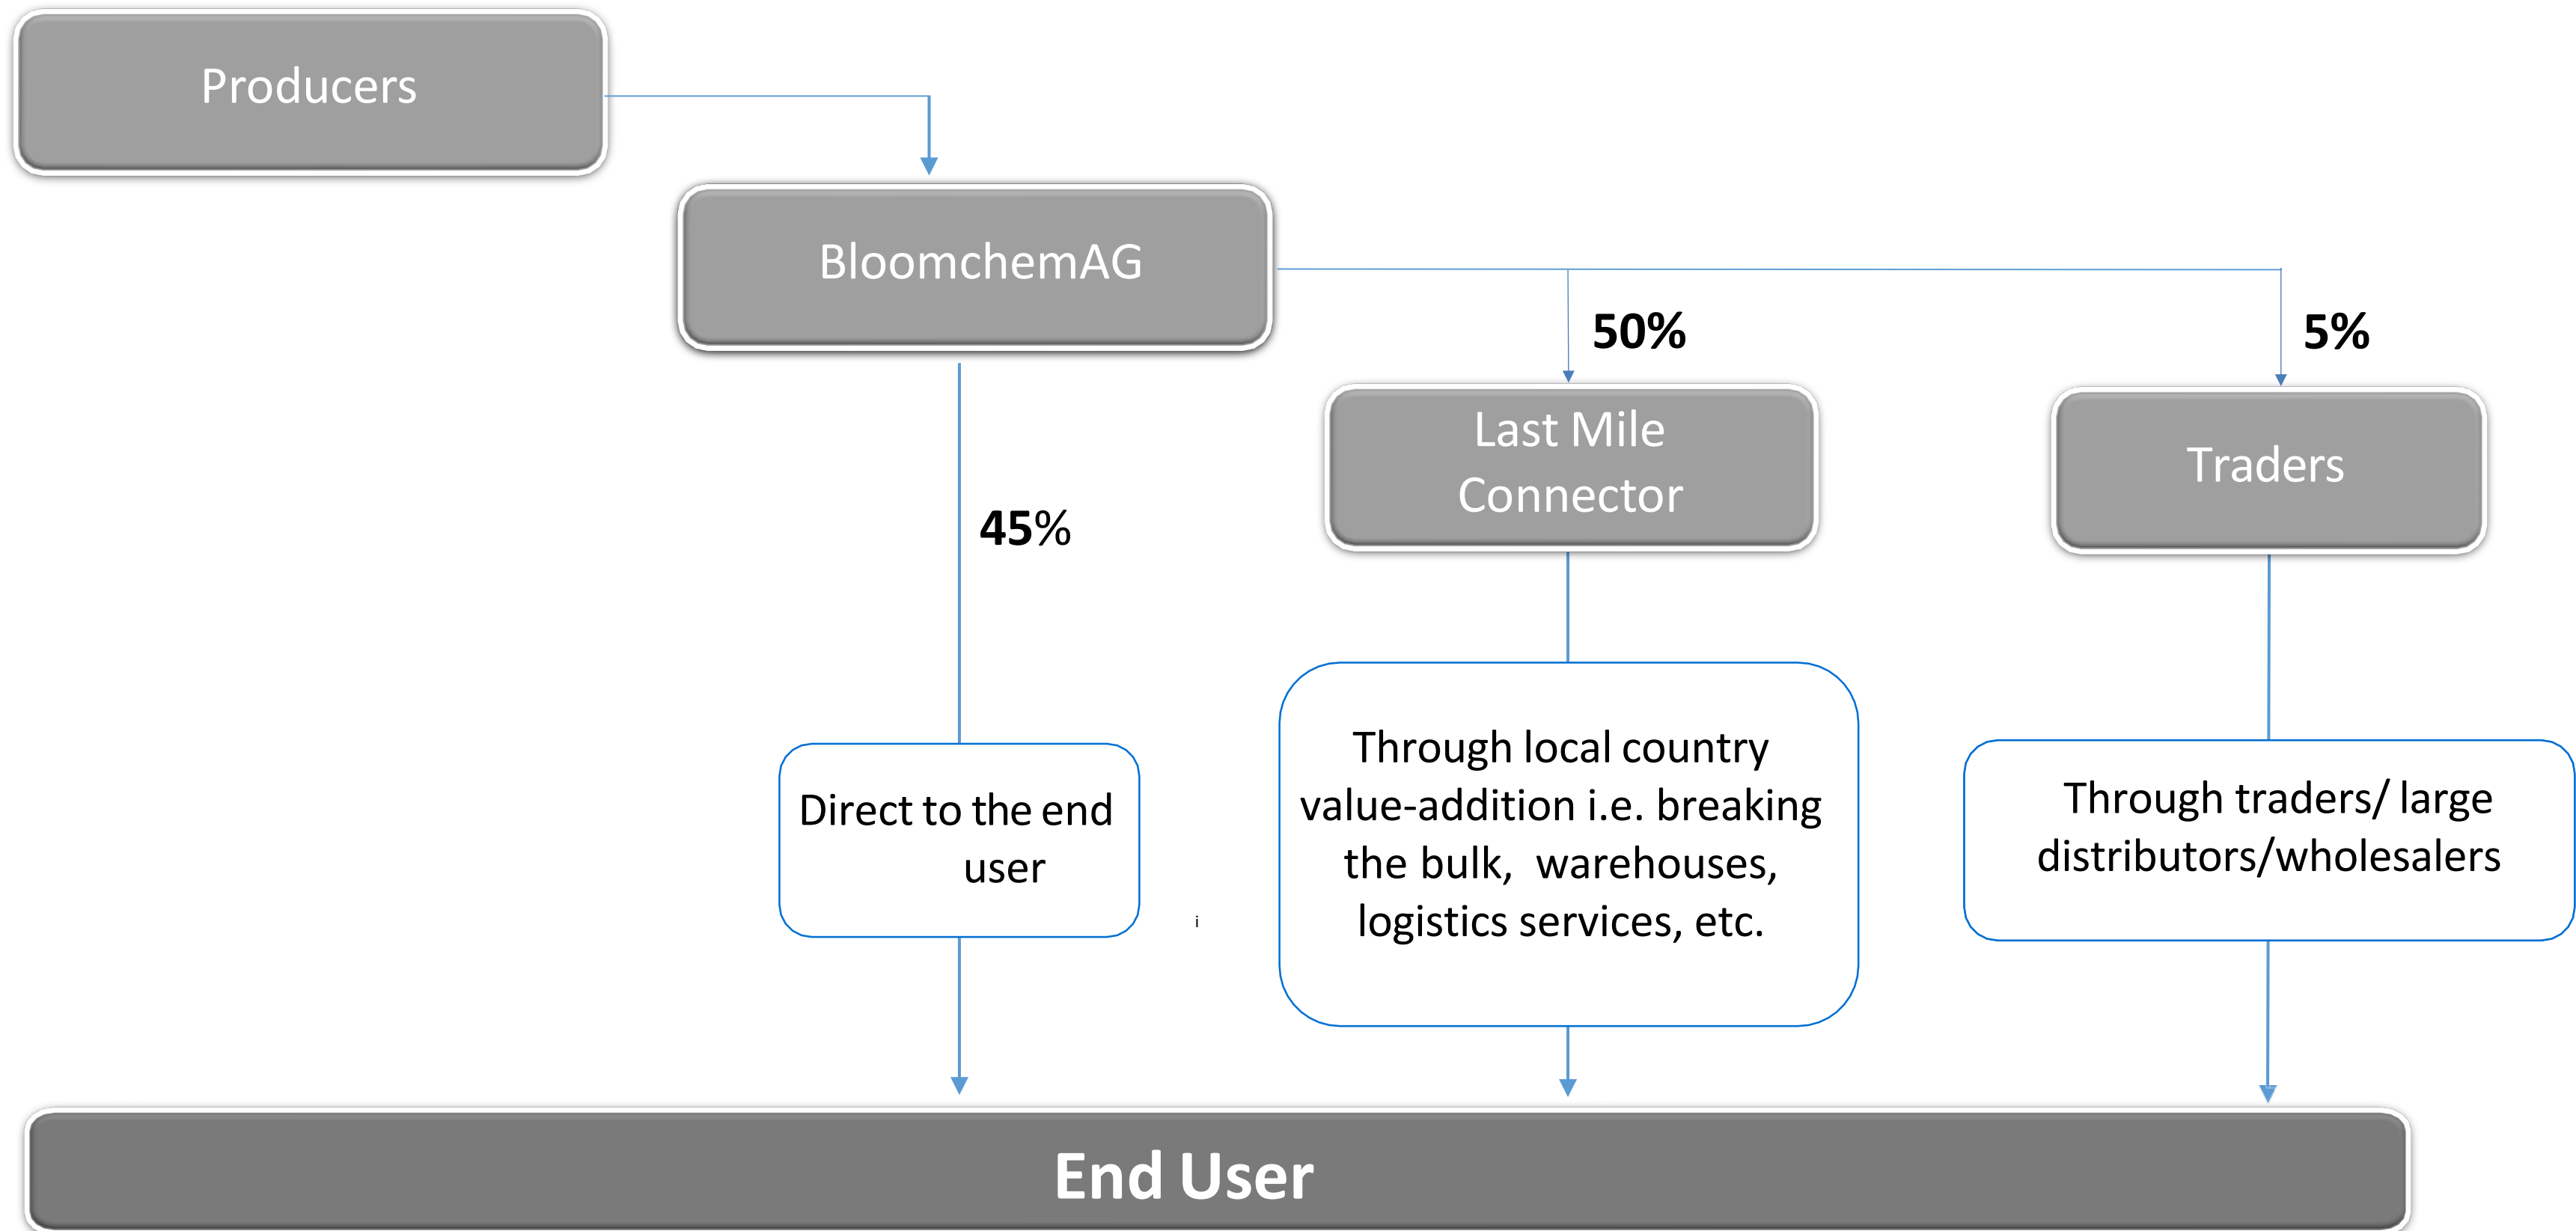

- Europe
- United Kingdom
- Africa, Latin America, and Others

Navigating Challenges: A Case Study in Proactive Solutions and Strategic Coordination

The case study highlights how our proactive approach and strategic coordination helped navigate a unique challenge, underscoring company's commitment to delivering results despite adversity.

Product: BISPHENOL A

Problem: Navigating Customs Challenges for Timely Delivery

- **Client & Product:** One large order of Bisphenol A, a vital component with multiple end-users.
- **Stakeholders Involved:** Supplier, Customer, Customs inspection team, Warehouse representative, Gas doctor.
- **Critical Issue:** Customs inspection delay jeopardizing production schedules, customer relations, and supply chain flow.

Solution: A Strategic Roadmap to Success

- **Proactive Engagement:** Our quick response and coordination ensured all stakeholders were aligned.
- **Revised Timeline:** Successfully negotiated a new inspection date from the initially unfeasible date.
- **Precise Execution:** Collaborated with gas doctor to provide necessary gas measurement and certification, a key requirement for clearance and implementing contingency plans.

Benefits: Delivering Value Beyond Expectations

- **Timely triumph:** Ensuring uninterrupted operations
- **Trusted Collaboration:** Strengthening Global Partnerships
- **Exceptional Relationship Building:** Enhancing Client Satisfaction

Sustainability Initiatives

Comprehensive Commitment to Safety and Compliance

At BloomchemAG, safety and compliance are central to our operations, guided by TQM.

ISO 9001:2015 certification validates our commitment to documented processes and global standards.

Global Responsibility and Ethical Engagement

At BloomchemAG, products spanning 1,000,000 global miles annually, we prioritize environmental responsibility, health, and safety for our supply chain.

Corporate memberships in DUN & BRADSTREET and ZENITO underscore our dedication to global citizenship, emphasizing social security and community support.

Compliance Assurance

At BloomchemAG, our policy strictly involves dealing only with the products that adhere to the REACH regulations and other applicable regulations.

BloomchemAG has pre-registered all the chemicals in its current portfolio which are mandated to be registered under REACH.
